Alfa enthusiasts and AROC members John and Betty Shoepke (the Bag Lady) spent years experimenting with desiccants, plastics and systems to find the right combination for storage of John's dozen Alfas plus parts, tractors and farm equipment. The business began on their farm in 1985. The Car Jacket is for winter or long-term car storage. Members claim that steel, rubber, vinyl, exhaust systems, even polished aluminum do not appear to age even after years of storage in a Car Jacket. Zippered and reusable. For indoor use only.
